LAMPO EMERGENCY

Many solutions in one single machine.
Versatile, easy to use, safe.

Multifunctional unit **LAMPO Emergency** stems from our concern to join in one single machine 5 fundamental instruments for the prompt action: generator, tower light, self priming pump, air compressor and fast-trolley. Studied to be used in any case of natural disasters, Lampo is synonymus of versatility and permits to take action in all challenges. It is available in various standard

from **10 to 60 kVA**, with self-priming electric pump from **1600 to 6000 l/min** and tower light with metallic halides, LED or halogen lamps. Lampo is an highly configurable system and each request of major power will be for Euromacchi8ne a new challenge to continue improving and growing in the emergency field.

Tower light from up to 6 lights

Control panel

Suction set

Delivery hose

Self-priming electric pump

Soundproof canopy 70 dBA

Parking jack

Submersible electric pump (optional)

LAMPO EMERGENCY Range

CHARACTERISTICS

MODEL	ENGINE	ALTERNATOR		PUMP				TOWER LIGHT			WEIGHT Kg
	Model	[kVA]	[kW]	Model	[m³/h]	[L/min]	∅ Solids [mm]	h Open [mm]	Lights	Power	
LAMPO 01 PC	3TNV76	10	8	EU 4-100	100	1650	38	6000	Alogena	4x500 W	1150

GENERATOR SETS AND LIGHT TOWERS

High functionality and easy to use,
in response to different needs.

GENERATOR SETS EMERGENCY Range from 5 to 250 kVA

- Gasoline or Diesel engine
- **LIGHT** range with monophasic power up to 10kVA
- **THUNDER** range with power up to 250 kVA
- Available in OPEN or SILENT version
- Available in trolley version

Gasoline
GEN-SET

Soundproof diesel
GEN-SET

TOWER LIGHT
4x1000 W

WORKING LIGHT LIGHT Range

- Mobile light system highly customizable
- High quality standard that allows a completely customization
- Height up to 10m
- Types of lights: halogen, metallic halides, LED, combined

SELF PRIMING MOTORPUMP SETS

For all kind of flows,
also in extreme conditions.

Self priming motorpump sets at low pressure, thanks to the design characteristics and to the practical measures made to the ergonomics, they are perfect for every emergency conditions.

All the motorpump sets are highly customizable to satisfy every use and requirements. In engine and electric version, for all flows **up to 1500 m³/h**.

MOTOR PUMP
1500 m³/h

SELF PRIMING MOTORPUMP SETS BIG Range

Flow from 150 to 1500 m³/h
Pressure up to 40 m

- Diesel engine
- Open or soundproof version (70 dBA at 7 m)
- Rapid ignitions and easy installation
- High resistance to abrasive liquids
- Wide range of costumizations
- Suction and delivery from 4" to 12"

Soundproof
MOTORPUMP SET
300 m³/h

Soundproof
MOTORPUMP SET
800 m³/h

SELF PRIMING MOTORPUMP SETS EASY Range

Gasoline
MOTORPUMP
100 m³/h

Flow from 10 to 150 m³/h
Pressure up to 25 m

- Diesel & gasoline engine
- Electric or bump start
- Easy installation and handling
- Rapid action in the emergency areas
- Suction and delivery: 2" - 3" - 4"

Diesel
MOTORPUMP
150 m³/h

IT'S IN THE EMERGENCIES THAT YOU CAN SEE THE GROUP FORCE.

We are stronger as a group. That is why our combined groups have been designed to be versatile and to work at the maximum possibilities in critical conditions and calamity too.

We designed, assembled and refined them taking into consideration the real exigences of prompt intervention.
